Frequently Asked Questions about the Mathematics Advisory Exam Results

1. **What does my MAE placement mean?**
   In general, students who receive a placement of "Math 9A" will enroll in MATH 009A, Calculus, as their first college mathematics course. Upon completion of Math 9A, your major will determine the next appropriate course for your enrollment. You will continue taking courses until you have completed the mathematics requirements for your major.

2. **What if I don't feel confident enough to begin with Calculus?**
   If you do not feel you are ready to begin the university-level Calculus courses and would rather review precalculus topics prior to enrolling in the Calculus course, please talk with your academic advisor. Your academic advisor will help you choose the course that is most appropriate.

3. **What can I do if I still have questions?**
   Please find advising information for your college or major at:

   College of Natural and Agricultural Sciences, CNAS

   Bourns College of Engineering, BCOE

   College of Humanities, Arts, and Social Sciences, CHASS

   School of Education

   School of Public Policy

   School of Business

4. **What if I change my major?**
   If you change your major, the Math course(s) you need to take may change. Please go to the MAE website at https://arc.ucr.edu/mae and select "Placement Adjustment Process" from the menu on the left.
